The Victory Yesterday was Largely Due to Nelson's Pitching—Bets Made that the Home Team will Win To-morrow.

UNIVERSITY OF VIRGINIA, March 22.-Special,-The Varsity boys have proved that they are as good at the bat as they are in the field. Lehigh, with their experienced left-hand twirler, Jackson, in the box expected to have an easy time of it in to-day's game. It took the wearers of the orange and blue just one inning to find the ball. After that they had scarcely any difficulty in placing it wherever they wanted to.

Lehigh's defeat was due in a great measure to the magnificent pitching of Nelson. Ten of their men, including the heaviest hitters, struck out. He remained a puzzle to the Pennsylvania ball team all through the game. In the third iming Worthington knocked a home run and brought two

WASHINGTON, March 22.-The Yale College and Young Men's Christian Association base-ball teams crossed bats here to-day. Shortly before the game a terrific rain storm set in, and as a result the grounds were in a wretched condition. The local club surprised the spectators by putting up a brilliant game in the field and at the bat. WASHINGTON, March 22.-The base-all team of Columbia College, N. Y., was defeated in a five-inning game here to-day by Georgetown University by a score of 26 to 0. Georgetown made thirteen hits and three errors, Columbia three hits and nine errors. Batteries: Fogerton, Carmody, and Ma-oney; Columbia-Larned, Stewart, and Cummings. Umpire, William Betts.

THE MOODY CHORUS. The First Rehearant Held in the Taberna

The Moody chorus held another rebearsal last evening, and for the first time the gathering was held in the tabernacle. The building was held in the tuder-nacle. The building was thoroughly lighted up by sixteen are lights and sev-eral hundred ladies and their escorts occupied seats in the audience, from where they listened attentively to the voices of the 1,050 members of the chorus, Quite a number of ministers were also in attendance, and everybody expressed himself as well satisfied with the arrangements and the accoustics of the tabernacle.

The fears as to the safety of the build-The fears as to the safety of the building have proven to be without any foundation. It has been thoroughly inspected by three prominent builders, who pronounced it to be perfectly safe. The roof is supported by posts which run through the floor to the ground, and the floor is resting on substantial posts four by six inches, which have been erected about eight feet apart, and have been thoroughly braced. In order to facilitate the exit, another wide entrance has been cut in the centre of the Main-street side.

The chords was considered by the constraint of Mr. H. Jacobs, and the singing showed marked progress. However, it was seemed unnecessary to arrange for annor rehearsal, which will take place the tabernacie to-morrow evening at

No member of the chorus will be admitted to the platform during the Moody meetings, unless he or she wears this badge, and is also in possession of a membership ticket and a copy of the book—Gospel Hymns, Nos. 5 and 6.

Polk Miller's Lecture a Great Success. The Boat Club.

A large and refined audience greeted Mr. Polk Miller last evening when he ap peared on the platform of the large hall of the Young Men's Christian Association. It was the seventh entertainment in the star course of the association, and Mr. Polk Miller had been prevailed upon to give his famous lecture, which has been enthusiastically received during Mr. Miller's recent tour through the State of New York. The yarns told by him were highly amusing, and his playing on the banjo was infinitable.

The audience, which almost completely filled the hall, was greatly amused. Governor O'Ferrall and Mrs. O'Ferrall were among the attentive listenses, and were highly pleased with the entertainment.

The American Druggist published in New York city, has the following complimentary notice of Mr. Folk Miller in connection with his recent visit in that city:

The Coming Bazasr.

The committee appointed by the officers of the First regiment to make arrangements for the notling of a bazaar will submit their report to the officers meeting next Monday evening, with a recommendation that the bazaar be held, commencing May 21st, and continuing until June 5th, but that some place other than the tabernacle be procured. It is probable that the armory hall will be used for the purpose. They had attempted to make arrangements for securing the Moody tabernacle, but the amount asked by the owners for the rental of the building was too exhorbitant for consideration, and virtually precludes the possibility of securing it. It is understood that 310 per day was asked for the use of the ground and \$250 per month for the use of the building.

The bazaar is to be held for the purpose of securing a uniform fund.
